

## Logistics

This assignment covers material from Chapter 4 and Chapter 6 of *Access Control, Security, and Trust: A Logical Approach* (ACSTLA). It is officially due in class on **Thursday, October 10**. However, it comes with an automatic extension: anything submitted by **1pm on Friday, October 11** will be accepted as being on time.

**You may work singly or in pairs on this assignment:** if you work with someone else, then turn in a single assignment with both names on it.

## Exercises

1. ACSTLA, Exercise 4.3.4
2. ACSTLA, Exercise 6.4.5
3. ACSTLA, Exercise 6.4.6

*Note:* For parts (d) and (e), answer with respect to the particular example given earlier in the problem (i.e., the reader enters Station *A* with a \$5 balance, travels to Station *B* for a \$1-trip, and exits at station *B*).
